

## Bois Forte Public Health COVID-19 Case Announcement 9/9/20

On September 8, 2020, Bois Forte Health Services confirmed that there are NO new cases of COVID-19.

The results are also in from the Community Testing Event's on September 3, 2020!

Nett Lake- 78 people tested with 1 positive  
Vermilion- 101 people tested with 0 positives

The positive case was counted on the case announcement on September 7, 2020.

Bois Forte Health Services would like to thank the Community for coming out to get tested.

Bois Forte Reservation currently has 2 active positive cases of COVID-19, 2 in Nett Lake and 0 in Vermilion. Bois Forte has had a total of 17 active and recovered positive cases of COVID-19, 10 in Nett Lake and 7 in Vermilion. Recovered, means they are no longer contagious and have been released from Isolation.

Rest assured that Bois Forte Health is doing everything in its power to keep the Reservation community safe while also providing support for those who have tested positive for COVID-19. Bois Forte Health will maintain regular contact with the isolated individuals and will monitor their compliance with isolation instructions. Bois Forte Health is engaged in contact tracing and will follow up with those suspected of having recent contact with the individuals who tested positive. Finally, the Band is coordinating with the Minnesota Department of Health regarding positive cases on-Reservation to ensure a robust and thorough public health response.

If you have any questions regarding the Band's public health efforts, please contact the Band's Community Health Nurse, Teri Morrison, at 2187502227. To the extent permissible under the law, Bois Forte Health will keep the public apprised of any developments regarding positive cases. Stay safe and be well.
