(Lunch will be provided)

"LEGEND HOUSE"

The Grand Mound and McKinstry Mound sites are located west of International Falls on Rainy River. The Grand Mound is the largest burial mound in Minnesota, and is situated with 4 smaller mounds at the mouth of the Big Fork River. There are 2 mounds located on the McKinstry site at the mouth of the Little Fork River. The mounds are at the center of an interconnected landscape of mounds, seasonal villages, and sturgeon fishing sites along Rainy River, extending from Rainy Lake to Lake of the Woods. The mounds date to the Woodland period but are located on sites dating from the Archaic to the historic period.
